DIMENSIONAL DIAGRAM

Length (L):

Always measured from under the head to the tip.
The head height is NOT included in the stated length.

Pozi bit size (PZ):

Use the bit size in the table below: PZ1 on the 3mm, PZ2 on the 3.5mm, 4mm, 4.5mm and 5mm.

METRIC SIZES, WITH A GAUGE AS A GUIDE

Example: 5mm is closest to a No.10

Chipboard screws are sold by metric size. The gauge is only a guide, so check d in the table.

FULLY THREADED: NO PLAIN SHANK

The thread runs right up to the head. Measure across the thread with a caliper. A new screw reads its size or a touch under.
